LUU

OUTDOOR/INDOOR LAMP

DESIGN BY

HENRIK PEDERSEN

PRODUCT NO.

32402-XXX

LUU is a solar-powered portable lamp. Easy to take anywhere – maintenance is as simple as a wipe with a cloth. The lamp charges either by solar power or via a direct USB-C connection. The lamp brings light to outdoor or indoor living. With its tactile form and calm expression, it moves easily from day to night, adding atmosphere without asking for attention. Light that feels natural. Even when it's off.

TECHNICAL INFO

DESCRIPTION

TYPE	Solar / USB-C rechargeable outdoor lamp
LIGHT SOURCE	LED, 2600 K
BATTERY	Li-Ion 3.6 V / 2550 mAh (replaceable)
OPERATING TIME	Up to 100 hours (on full charge)
SOLAR PANEL	5,5 V / 0.6 W
CHARGING INPUT	USB-C 5 V / 1 A
MATERIALS	ABS + Polycarbonate (body + shade), (tube/stand), silicone seals
INGRESS PROTECTION	IP65 – dust tight and water-resistant
OPERATING TEMPERATURE	-10 °C to +45 °C
WARRANTY	5 years (battery 3 years)

CHARGE THE LAMP Charge the lamp using the USB-C port on the bottom or via the solar panel on top. A USB-C to USB-C cable is included – charger not included. When charging starts and when switching between functions, the battery level is indicated by 3 LED lights.'

CHARGING TIME Approx. 40 hours via solar / 4 hours via USB-C.

NIGHT MODE When NIGHT MODE is activated, a warm yellow indicator lights up for 12 seconds as confirmation. The lamp turns on automatically when it gets dark and turns off again after 6 hours.

BATTERY LEVEL Small lights show the battery status for 3 seconds when the lamp is turned on or charging. If the lamp flashes with one LED, it needs recharging.

BATTERY CAPACITY Intensity level – High: 8h / Low: 100h. The lamp will power down to “low” after 4h and switch off after 6h continuous use. The indicated hours are based on temperatures exceeding 10°C.

MAINTENANCE Use a soft cloth with lukewarm water. Avoid any kind of chemical detergents.

REPAIR The product can be disassembled, allowing replacement of technical components. For spare part information, please contact your HOUE retail partner or visit houe.com. The light source in this luminaire shall only be replaced by the manufacturer, service agent, or similarly qualified person.

BATTERY SAFETY Replacing the battery with an incorrect type may defeat safety safeguards. Disposal of the battery into fire or a hot oven, or mechanically crushing or cutting it, may result in an explosion. Leaving a battery in a high-temperature environment may cause explosion or leakage of flammable liquid or gas. A battery exposed to extremely low air pressure may cause explosion or leakage of flammable liquid or gas.

Manufactured by Bao Jie Electronics (Shenzhen) / Limited for HOUE ApS. In accordance with the WEEE Directive 2012/19/EU, you must return the electronic unit to a collection point for recycling at the end of its lifecycle.
