

MATERIAL & MAINTENANCE

MATERIAL

RECYCLED PP

HOUE uses recycled polypropylene (PP). The polypropylene is sourced from household and industrial waste and repurposed into Danish design furnitures. By using recycled polypropylene, we can reduce our reliance on virgin materials and still produce high-quality furniture with the same properties as new plastic in terms of performance and durability.

MAINTENANCE

CLEANING

- Clean regularly with a mild soap solution and lukewarm water.
- Use a soft cloth or sponge to avoid scratches.
- Rinse thoroughly with clean water and dry with a soft cloth to avoid water spots.
- Avoid using strong chemicals and solvents, as they can degrade the plastic surface.

PRESERVE & PROTECT

- To maintain the product's appearance, we recommend keeping it away from prolonged direct sunlight to minimize the risk of discoloration.
- Avoid placing heavy objects on the furniture for extended periods, as this may affect its appearance.

STORAGE

- To extend the life of your furniture, clean and dry it before storing in a covered, dry location (e.g. with a furniture cover) during the off-season or extended periods of non use.

MATERIAL

WARRANTY

2-YEAR WARRANTY on Recycled polypropylene (PP) covering structural integrity, and resistance to environmental factors under normal use, weather conditions and maintenance. See HOUE Warranty Terms for further information.
