## LAMELLAS MADE FROM DANISH HOUSEHOLD PLASTIC TRASH

ReCLIPS is a collection of chairs with wide plastic lamellas clipped on a powder coated aluminum frame.

The lamellas are made from Danish household plastic trash and produced in Denmark. The technology behind re-using plastic household trash for furniture production is developed in Denmark. So, looking at ReCLIPS you are basically looking at the result of mixing Danish design and Danish innovation in applying new thinking and materials into a chair.

ReCLIPS Dining and Rocking chairs come in 4 mono colors: black, dark grey, olive green and sky blue – and with the choice of aluminum or bamboo armrests. The Bar stool is available in black. The aluminum frame combined with the UV protected plastic lamellas keep the maintenance to a minimum.

Designed by Henrik Pedersen.

## TURNING TRASH INTO TREASURE

---

WE STOPPED LOOKING AT TRASH AS A PROBLEM  
AND STARTED SEEING IT AS THE RESOURCE IT IS.

# HOUSEHOLD PLASTIC TRASH

**ReCLIPS IS MADE OF  
LAMELLAS: 97% HOUSEHOLD PLASTIC TRASH  
+ 3% COLOR PIGMENTS AND UV PROTECTION.  
FRAME: POWDER COATED ALUMINIUM**

Developing ReCLIPS, HOUE was determined that the right steps were taken in creating a responsible collection of chairs.

By using household plastic trash instead of virgin – or recycled industrial plastic, it is not only the recycling of plastic and the use of trash that is beneficial – there are also significant savings on the amount of energy used in production.

When creating products from household plastic trash, we worked from a systematic perspective, taking into account how things are always connected. Consequently, we base our decisions on facts and thorough documentation.

**ReCLIPS ROCKING CHAIR IN MONO COLOR. AVAILABLE IN 4
