FALK CHAIRS

EU Ecolabel:
DK/049/005

As a part of living up to EU-Ecolabel's criteria regarding consumer information (declaration 10), HOUE has produced this document outlining the relevant consumer information for the FALK Chairs

1. Product description

FALK – is a chair made from post-consumer plastic – directly from household plastic trash!

DIMENSIONS: Displayed under each product.

MATERIALS: Base: 4 leg construction or swivel with and without castors. Shell: household plastic trash. Upholstered seat in colored fabric made from 98% recycled post-consumer polyester or 48% New Zealand wool, 41% recycled post-consumer polyester, 9% polyamide, 2% polyester.

DESIGNED BY: Thomas Pedersen

2. Polymer types above 100 grams

The only plastic above 100 grams is the FALK shell, weighing: 3134 g (armrest) and 3406 g (low armrest). The recycled household plastic trash is marked with resin identification code "5".

The composition of the shell:
75% household plastic trash, 20% Glass fiber and 5% color pigment

3. Usage

FALK has a clear signature look but isn't overpowering in its appearance. This makes FALK fit equally well in a home, the hospitality market and in an office setting.

4. Information on glas types

Not relevant.

5. Compliance with fire safety

Not relevant, because no flame retardants have been added.

6. Declaration of non-use of biocides

HOUE hereby declares that no biocides are added to the product.

Further HOUE lives up to REACH and the European legislation.

7. Compliance with relevant EN standards

The FALK Chairs have undergone several tests and have passed the following:

EN 16139:2013, EN 1022:2005 and EN 16139

Further, HOUE declares that no flame retardants have been added to the product.
