AVANTI DINING TABLE

As a part of living up to EU Ecolabel's criteria regarding consumer information (declaration 10), HOUE has produced this document outlining the relevant consumer information for the AVANTI Dining table.

1. Product description

WOODEN TABLE TOP: AVANTI Dining table top in Thermo Ash is sourced from European woods that are sustainably managed. The Thermo Ash is thermally treated at a temperature of at least 215°C without the addition of chemical substances using steam to prevent splitting and cracking the wood. This treatment gives the wood its impressive durability and a rich warm appearance which is further enhanced with an oil finish.

STEEL FRAME: AVANTI Dining table frame is made from high quality durable steel tubes treated with a rust inhibitor to prevent oxidation. After this, a protective powder coat is applied, which not only enhances the visual appeal of the furniture but also offers an extra layer of defense against corrosive agents that can cause rust or other types of damage. Steel boasts a long lifespan and is also recyclable, which aligns with HOUE's commitment to sustainability.

DESIGNED BY: Henrik Pedersen
